
Social Happenings

Mr. and Mrs. Roy Bair have moved into the former Price home on N. W. First Street.

Mr. Kenneth E. Harris, assistant agricultural engineer at the Everglades Experiment Station, has resigned that position and returned to his home in Indiana.

Mrs. Mildred Larrick has accepted a position as secretary at Everglades Experiment Station beginning the 15th, replacing Mrs. Gladys Bolton who resigned. Mrs. Bolton will keep books for Mr. C. A. Thomas in Lake Harbor.

Sunday afternoon guests at the home of Mrs. Dela Altman were her sister and niece, Mrs. Coleman J. Hall and Mrs. Ivan T. Hall of Lakeland.

Mrs. Dorothy Buckland visited last week at the home of Miss Katherine Kitchin in Bunnell, Florida. Juanita Burns and a Tommy Lowery are guests this week at the home of Mrs. Dela Altman.

Cadet Willard Jones flew from Atlanta to attend the

Petty Parish who was a medical patient at Good Samaritan Hospital, West Palm Beach, returned home Tuesday.

POTLUCK SUPPER ENJOYED BY TR-F METHODISTS

A potluck supper was held Tuesday night by Tr-F Methodist Church with Mrs. R. J. Davidson, Mrs. Alfred Vadasz and Mrs. Garold McKee as hostesses.

A brief business followed the supper, Mrs. Garold McKee presiding, during which Mr. Guy Wood was appointed chairman of a welcoming committee to visit new people in the community.

Games and group singing completed the evening.

Attending were: Mr. and Mrs. Leo Berryhill, Mr. and Mrs. Aubrey Arnold, Mr. and Mrs. Jesse Moxley, Mr. and Mrs. F. A. Wright, Mr. and Mrs. V. A. Boots, Mrs. E. M. Lively, Mrs. Frank Anderson, Miss Margaret West, Mr. and Mrs. J. W. Hooker, Mrs. S. K. Smith, Jr., Mrs. R. T. Mackey, Mrs. Mary Lyon.

ard, Mr. and Mrs. Al Treganza, Mrs. R. V. Allison, Mrs. W. J. Norris, Dr. and Mrs. Clarence Kiddier, Mr. and Mrs. V. Y. Vadasz, Mr. and Mrs. Garold McKee and Mrs. J. R. Davidson.

LOCAL BOWLING TEAM BEGINS SEASON

A local bowling team was formed at a meeting held Tuesday night at the William Graber home.

A series of twelve games are scheduled, the first of which was played in Clevelton last night.

The first team, sponsored by William Graber, includes: Mrs. Graber, Mrs. C. C. Livingston, Mrs. E. A. McCabe, Mrs. Alfred Vadasz, and Mrs. Garold McKee.

Forming the second team are: A. E. Kirchman, sponsor, Mrs. A. E. Kirchman, Mrs. A. J. Richmond, Mrs. J. T. Williams, Mrs. Benny Weeks and Mrs. C. Appy.

Anyone interested in playing as a substitute may call Mrs. A. E. Kirchman.

SUNDAY AFTERNOON TEA HELD BY BETA SIGMAS

An afternoon tea held Sunday at the home of Mrs. Ruth Timmons, director, marked the first social event of the section for Beta Xi Chapter of Beta Sigma Phi.

Receiving at the door with Mrs. Timmons were Mrs. O. G. McWhorter, president, and Mrs. Ellis Wilkinson, vice president.

The sorority colors of gold and black were the color of the decorations. Mrs. E. M. Lively poured.

Honored guests were: Mrs. C. A. Bailey, Mrs. Norma Weck, Mrs. McCarty, Mrs. Dade Collins, Mrs. E. M. Ayres, Mrs. E. J. McAllister, Mrs. Clyde Mackey and Mrs. Carl Lockmiller.

Members attending included: Mrs. Clyde Parrish, Mrs. Nick Paff, Mrs. Francis Cross, Jr., Mrs. Julius Harris, Mrs. Tom Lloyd, Mrs. Carl Cone, Mrs. Paige Choate, Mrs. Louis Kitchman, Mrs. Clyde Clayton, Miss Connie Smith, Mrs. Frank Anderson, Mrs. R. Y. Vadasz, Mrs. W. A. Wood, Jr., Mrs. R. L. Dexter, Mrs. O. G. McWhorter, Mrs. E. M. Lively, Mrs. Ellis Wilkinson and the sponsor, Mrs. A. B. Ball, Jr.

PROGRAM PLANS MADE BY WOMAN'S CLUB COMMITTEE

A committee meeting was held by officers of the Woman's Club at the home of Mrs. I. L. Price Tuesday morning.

Plans were formulated for a coordinated, diversified Club program for the coming year.

Attending were: Mrs. E. D. Humphries, president, Mrs. A. B. Ball, Mrs. R. Y. Vadasz, Sr., Mrs. W. C. Bamford, Mrs. J. L. Gay, Mrs. R. V. Allison, Mrs. M. Wood, Mrs. R. L. Murray, Mrs. H. D. Beck, Mrs. F. C. Dooley and Mrs. Rhady Faulk.

School News
By Guy McWhorter

Due to rainy weather last Thursday the Big Show was originally scheduled was called off. But after the game Friday night we decided to really need one after all because the score was 12-0 in Clevelton.

Everyone was extremely happy afterwards and there were new songs were sung. The pep club has really been good so far—so let's all keep yelling. We sure to be at the game and yell as loudly as possible tonight.

WMU Gladys Smith Circle Holds Regular Meeting

The Gladys Smith Circle of WMU, Baptist Church, met last Tuesday night (Oct. 3) at the home of Mrs. Janis Harris.

Taking part in the program, "Behind the 12-12 Curtain," were: Mrs. Marvin Unwin, Mrs. W. A. Thibaud, Mrs. Roy Litchfield, Mrs. Wallace Lutz, and Mrs. Eva Williams. Devotionals were led by Mrs. Marvin Unwin.

Others present were: Mrs. Nellie McMillan, new member; Mrs. Wade Griffin, guest; Mr. J. H. Chambliss, Mrs. Frank Kelley, Mrs. Tom Lloyd, Mrs. Q. Waddell, Mrs. Jack Whitlock, and Mrs. Ellis Wilkinson.

Freedom Crusade Begins Rolling, Says Cole

With organizations set up and working in most every Florida community, the "Crusade for Freedom" began rolling in high this week and State Chairman Harold Cole stated that names were being enrolled on the "Freedom Scroll" by the thousands.

Contributions are beginning to come in, too, Cole stated, and he expressed his confidence that Florida would reach her quota of a million names on the scroll, backed up with liberal contributions toward the establishment of a network of Free Radio Stations powerful enough to pierce the Iron Curtain.

Scrolls being circulated in the schools this week, and in many communities booths have been set up at convenient locations in the business section, where voluntary workers are gathering signatures and contributions.

Plans for the official dedication of the Freedom Bell in Berlin are progressing, and it promises to be an impressive ceremony. When the bell is rung for the first time on United Nations Day, October 24, thousands of other bells will ring out in free nations of the world. It will be a mighty proclamation of free people everywhere and will give courage and hope to millions enslaved behind the Iron Curtain.

If you have not signed the

Freedom Scroll and made a contribution, do so today. Contact your local campaign headquarters.

Men With Dependents Get Allowance In Marine Corps

Capt. J. J. Reardon, State Marine Recruiting officer, has announced that men now enlisting in the Marine Corps who have dependents will receive a special allowance in addition to their pay.

Dependents of Marine privates, privates first class, and corporals will receive \$85 per month if there is one dependent, \$107.50 per month if there are two, and \$125 per month if there are more than two dependents.

One or two dependents of a Marine sergeant or staff sergeant will receive \$127.50. If there are over two dependents, they will receive \$145.

Marine master and technical sergeant's dependents, if one or two, will receive \$147.50. The maximum payable will be \$185, paid to more than two dependents of the two top enlisted grades.

In every case, Reardon explained, an amount based upon the rate of pay of the Marine concerned will be contributed by him for inclusion in the total payment to dependents.

Hunting To Be Prohibited On Special Days Of Season

Every-day hunting will be allowed this year only in North-

west Florida's Third District under a change of rule adopted by the State Game and Fish Water Fish Commission, Monday, according to Colman Neuman, director.

Under the new regulations, hunting will be prohibited on Mondays, Tuesdays and Fridays after the first four days of the season in the First, Second, Fourth and Fifth Districts. Opening day of the new season was changed from November 25 to November 23, Neuman stated.

Original closing dates of January 5 for deer, turkey, squirrel, bear and panther and February 5 for quail were unchanged. Shooting of hen turkeys will be allowed in all districts except Northeast Florida's Second District.

Staggered hunting days will not be in effect on migratory birds which are under Federal jurisdiction, Neuman said. Hunting will be permitted, Neuman pointed out, on both Christmas and New Year's Day.

F.L.A. POWER AND LIGHT TO ADVERTISE STATE

The story of new opportunities for business and industry in Florida is being told by Florida Power and Light Company in advertisements published in leading business magazines and newspapers in the U. S.

"Our campaign to advertise Florida has been set off to a fast start," P. P. deMora, manager, said yesterday. "During July and August our company began advertising in such well-known publications as the Wall Street Journal, Business Week, New York Journal of Commerce and Chicago Journal of Commerce."

"Continuing in September, October, November, and December, we will use these publications augmented by Nation's business and U. S. News and World Report."

"Our advertisements in these publications are reaching millions of America's leading business men throughout the United States, telling them of Florida's opportunities and inviting them to locate their plants in Florida."

"Florida Power and Light is thoroughly 'sold' on the fact that we have a sound state and an expanding economy. We are so convinced that we are buying advertising space to 'tell the world' delboys said.

EPISCOPAL CHURCH RESUMES SERVICES

Vicar Revd. Ronald Lane Lattimer of the Episcopal Church of the Holy Nativity in Pahokee has returned to conduct services.

Sunday services this month are at 11 a. m., with the Holy Eucharist and sermon to the first, third and last Sunday; Morning Prayer and instruction on the other Church School is held each week at 10 a. m.

On weekdays, the Holy Communion is celebrated every Tuesday and Thursday at 9 a. m., and at the same hour on Prayer Book Holy Days. The latter fall this month on the 18th, St. Luke, which will be commemorated at St. Martin's Church, Clewiston, and on the 26th, St. Simon and St. Jude, in Pahokee.

St. Martin's Guild holds its regular meeting on the third Monday evening of the month at 8 p. m.

Florida Auto Dealers Prepare For 1951 Meet

Members of the Florida Automobile Dealers Association, now approximately 400 strong, already are preparing to actively participate in the 1951 convention of the National Automobile Dealers Association at Miami, January 7 to 10, it was announced here today by Charles S. Booking, president of the state group.

Booking reported that J. Sexton Lloyd, of Daytona Beach, Florida director for the N. A. D. A., has been appointed chairman of the general convention committee.

Other Florida dealers who have been appointed to convention committee posts are Clarence Holtzinger, Tampa; B. H. King, Orlando; Charles B. Tulane, Ben McGabrey, Miami; C. Pendarvis, Tampa, and Walter C. Mallory, Orlando, general manager of the Florida association.

Now is the time in which to prepare your heating system, advises the National Warm Air Heating and Air Conditioning Association which points out that heating men are more readily available now than they will be when a cold spell strikes and everybody will be wanting attention at once.

JOIN THE FIRST TEAM—U. S. MARINES.

Too Late To Classify

By Russell Kay

Four hundred delegates from every section of Florida gathered in Tampa last week for the second Governor's Safety Conference.

Opening the two-day session, Governor Fuller Warren, in one of the most forceful talks of his career, urged the formation of a Citizens' Safety Council that would militantly take the state's safety problem and work with officials in formulating a long range highway safety program.

Pointing to this state's appalling highway death and accident rate, the Governor said that 483 Floridians died in traffic accidents last year; 24,000 other were injured, and of these, over 2,000 were permanently disabled.

"That is as if every person in a city the size of Gainesville suffered personal injury in some great calamity and one citizen out of every 12 was permanently disabled. If such a thing happened in a hurricane," he pointed out, "we would be shocked into militant action, while we remain apathetic to an equal loss in highway accidents."

Despite opposition that came from former State Representative J. Bralley Odham, president of the Florida Junior Chamber of Commerce, and representatives of the American Automobile Association and insurance groups who contended that such a council would only duplicate the work being done by other agencies, the Conference voted to establish such a council and named J. M. Chitt, executive of the Winn-Lovelace Grocery Company of Jacksonville as its first president, and

Mrs. Raeburn C. Horne of Madison, president of the Florida Federation of Women's Clubs, as vice president, along with 24 directors.

A constitution and by-laws were quickly adopted and President Chitt said the organization would immediately begin to formulate a long-range program to attempt to reduce the rising rate of traffic deaths. He invited opposing forces to join with all citizens in a crusade to make Florida highways the safest in the nation.

The Citizens' Safety Council, according to executive secretary Nat Rambo, will be strictly advisory and will wage year-round battle for safety measures. It will be supported by funds provided by the Legislature as needed.

At present the group is operating on loans from Cabinet departments and a sum from Governor Warren's emergency funds, he said.

During the conference Norman Damon, vice president of the Automotive Safety Foundation told delegates that "confronting us is the grim fact that Florida has the second highest traffic death toll increase in the nation in the first six months of this year."

"Since 82 per cent of all vehicle travel is now by passenger car and another 8 per cent by bus, it is important for a state like Florida to have safe highways," he continued.

Mr. Damon reported that a recent survey revealed that the average highway traffic death cost \$18,000 while personal injuries average \$500 and property damage about \$300. The total loss over the period of a year is appalling, he said.

Unfortunately, accidents are so common that citizens have

become calloused to them. They do not stop to consider the individual loss that each accident represents in time, doctor and hospital bills and property damage. Disregarding the danger that constantly lurks on our highways, they discount the possibility that they may be the next victim and look on accidents as things that happen only to "somebody else."

While our State Road Department and State Safety Department are doing excellent jobs with the funds at their command to improve and safeguard our highways, it is going to take a statewide awakening of our citizens to solve this serious problem.

The next session of the legislature will be called upon to pass legislation that will require periodic inspection of all motor vehicles, examinations of all drivers before a license is renewed or issued, and to appropriate additional funds for the operation of the newly formed Council and for additional highway patrolmen.

Such a program cannot be accomplished unless the people themselves are thoroughly aroused and make it known to their legislative representatives what kind of a program they approve and would like to see established.

In some states inspection of vehicles is little more than a racket that works to the advantage of officially designated inspection stations. The fee is collected and a sticker placed on the windshield with little effort on the part of the agency to thoroughly inspect the vehicle. Care should be exercised by both the legislature and the public to see that it does not become so in this state.

Who runs America?

the Congress? the President?

OR YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, the Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

General Federation of Women's Clubs	American Legion
American Farm Bureau Federation	National Association of Small Business Men
National Grange	United States Chamber of Commerce
Veterans of Foreign Wars	National Association of Retail Grocers
National Conference of Catholic Charities	National Retail Dry Goods Association
American Protestant Hospital Association	American Bar Association

• Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. • Doctors of America are dedicated to serve their fellow citizens in peace and their comrades in uniform, wherever service to this Nation may take them. • And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the proud security of a free and self-reliant people!

THE VOLUNTARY WAY IS THE AMERICAN WAY!

• Throughout the Nation, free men and women, working and planning together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are healthily competition—inspired by doctors, insurance companies, the public, fraternal organizations by industry, agriculture and labor. • Today

In America 70 million people are protected by Voluntary Health Insurance! • Throughout the Nation, families are insuring themselves against the major costs of illness—at reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. • For information, ask your doctor—or your insurance man!

An American's greatest heritage is the right to learn the facts—and to speak his mind. Maintained with honor and used with sincerity—that right will guarantee forever that

You and Your Neighbor Run America!

CUNHA APPOINTED HEAD OF ANIMAL HUSBANDRY AT STATE UNIVERSITY
Dr. T. J. Cunha has assumed his duties as head of the University of Florida animal husbandry department, according to an announcement by Dr. J. Wayne Reitz, provost for agriculture at the University.
Appointment of Dr. Cunha, a member of the animal husbandry staff of the College of Agriculture and the Agricultural Experiment Stations, was approved by Dr. J. Hillis Miller, president of the University, and the State Board of Control, and he took over his new post on October 1.

Dr. Cunha is a native of Los Banos, California, and holds the bachelor of science and master of science degrees from Utah State College and the doctor of philosophy degree from the University of Wisconsin. He was a member of the animal husbandry staff of Washington State College from 1940 to 1948, and he came to the University of Florida in September, 1948.
He is well-known in the animal husbandry field and his research in the nutrition of cattle, swine, and sheep has attracted national attention. During the two years he has been at the University of Florida, he has done major research

on the vitamin needs of animals, and he was one of the first scientists in the nation to show that addition of small amounts of auremycin to feed for pigs caused a marked increase in gains. Of particular significance to Florida was his finding that citrus molasses is an excellent feed for swine.
As head of the animal husbandry department at the University of Florida, Dr. Cunha will be in charge of animal nutrition and livestock management and research in the College of Agriculture and the Agricultural Experiment Station.

U. S. GOVERNMENT HAS ANOTHER BEST SELLER
Citizens who are following the progress of the local civil defense committee will be interested in the government's latest best seller.
The Federal Government is carrying on a thriving book-selling business, the Government Printing Office announced today, as it found another best seller on its hands—the second within a month. Orders started pouring in to the Superintendent of Documents in Washington for the National Security Resources Board's newest publication, entitled "United States Civil Defense," which sells for 25 cents. Over 5,000 were sold the first day of an initial printing of 50,000 copies of the book, which is described as the most comprehensive publication issued to date by the Federal Government on civil defense.
The Government's other best seller, "The Effects of Atomic Weapons," was released last month and is now in its fourth printing. Over 40,000 copies have been sold at \$1.25 each of this book issued by the Atomic Energy Commission, which describes what may be expected when an atomic bomb explodes.
Safety measures required for use of gas heaters
Robert H. Gardner, deputy hotel commissioner for this area, called attention recently to the new state law regulating the use of gas or oil heaters in rooms used for sleeping. The provision which goes into effect November 1 calls for automatic safety cut-off devices on this type heater. It also states the heater must be properly vented to the outside and that metal pipe connect-

ions must be installed.
Failure to comply with the requirements will result in revocation of the hotel license, Gardner pointed out.
HOLLAND TO START
(Continued from Page 1)
of Florida a complex report on his work for the Nation and the State and to learn first hand the thinking of Florida citizens on pressing domestic and international issues.
Later in October, Holland will speak in Sarasota, Palm Beach, Miami and Tallahassee. On November 9 in Orlando he will attend the first "Small Business Clinic" to be held in the southeast. His opening appearance was in Orlando, October 9, when he spoke at the Florida Kiwanis District Convention.
With reference to legislation particularly affecting Florida, Holland said, "Florida has been fortunate this session in receiving appropriations for the continuance of vital improvement programs. It was only through the wholehearted cooperative efforts of the entire Delegation that we were able to secure \$5,500,000 to continue the important flood control project which means so much in added security to life and property and in safeguarding the production of food."
He also pointed out that the new appropriations would continue the construction of the big Jim Woodruff Dam in West Florida, and would accomplish needed harbor improvements at Tampa and Jacksonville, and begin the deepening of the East Coast Intercoastal waterway.

the past few years, but still in 1949 farm fire losses totaled \$95,000,000. On hundreds of farms in 1949, fire destroyed everything on the place insofar as buildings and equipment are concerned, while the average loss on the thousands of farms where fires occurred was 20 per cent. In addition to heavy property losses, there were tragic losses of life and much suffering in farm fires. Anyone who has been severely

burned knows how painful a fire burn is, and usually, as a result of the hard lesson, is careful with fire. But it should not be necessary for people to be burned before they are careful with fire, and it is with

the idea of protecting them from suffering and loss that fire prevention campaigns are carried on.
THE U. S. MARINES WANT VOLUNTEERS—JOIN TODAY

We salute AMERICAN MEDICAL PROGRESS
We are pleased to place our name beside those of other liberty-loving Americans who throughout the Nation today reaffirm their adherence to the principles of traditional American enterprise and initiative. We believe firmly that in all fields—from industry to the arts—from agriculture to medicine—America has proved to the world that...

FAILURE TO REALIZE FIRE DANGER LEADS TO LOSS, SUFFERING
Uncontrolled fire is a dreadful thing that usually develops from failure of individuals to recognize and keep in mind how destructive this common and useful servant of man can become when it breaks out of bounds.
And the coming week, October 8 to 14, has been designated as National Fire Prevention Week for the specific purpose of impressing upon all the power and danger of fire and convincing all of the need for exercising care with fire and taking steps to prevent outbreaks of fire.
Farm people in this country have made some progress against destructive fire during

WILLYS F-HEAD HURRICANE
—One of the world's most efficient engines for power output and long mileage!

You get higher efficiency and longer mileage on regular-grade gasoline with the HURRICANE Engine because of its higher compression and exclusive F-head design—valve-in-head intake and valve-in-block exhaust. Only America's highest-priced cars offer you higher compression!

7.4 COMPRESSION — LEADER IN ITS FIELD! BETTER PERFORMANCE—LONGER MILEAGE!

WILLYS Station Wagon with HURRICANE engine
Willys gives you the performance of the HURRICANE Engine...the road-smoothing comfort of Flansdine Suspension! It's America's largest selling station wagon—No. 1 buy!

They that can give up essential liberty to obtain a little temporary safety deserve neither the liberty nor the safety
Benjamin Franklin

AMERICA IS THE ...

Land of the Free

BUT AMERICA IS NOT THE LAND OF THE FREE HANDOUT

Our Nation was founded on the principle that Freedom must be paid for—and is well worth paying for.
The American people have made great sacrifices in payment for liberty.
But they have refused to sacrifice liberty for promised "security"...to trade freedom for the spurious "safety" of State Socialism.
This firm is proud to be part of a community and a country where each American is free to worship as he chooses—and grants that same privilege to his neighbor...where a business is free to create a better product, and to compete in the open market for patronage.
Unfettered by political controls, American medicine has made this the healthiest, strongest Nation in the world. Socialized medicine would endanger our physical health, our economic welfare and our political freedom.
With American medicine, we say...

Let's keep our right to manage our own lives... to earn our liberty...to keep America the LAND OF THE FREE

Dr. R. L. Pipes Dr. Herman Baxt Dr. W. J. White

America's Utmost in Tire Rubber Economy

THE GREAT Mid-Century U.S. ROYAL MASTER
SKID PROTECTION—LIFE PROTECTION NEVER KNOWN BEFORE

UNITED STATES RUBBER COMPANY
HAWKINSON TREAD SERVICE
Phone 2871 Belle Glade, Fla.

ROYAL

Their longer life and greater rubber economy prove them the essential tires of the era.
Every ounce of them is working rubber, without a fraction of waste or excess.
Each of them can give years, instead of miles, of extreme safety and comfort. They are supported by large community investments in dealer service and maintenance equipment.
All of their original safety-mileage is continuously renewed and renewable, without recapping or anything of the sort.
With blackwalls, or whitewalls, they bring every owner their Mid-Century Curb-guard, to protect their sidewalls and end all grinding curb scuff and abrasion.
They also bring their incomparable Safety Tread (ROYALTEX)—for Skid Protection, Stopping Power, and Life Protection never possible before.
These Royal Master qualities are entirely exclusive. They serve and save at the very heart of the National Economy. They remain fresh and new in safety, when other tires are giving up their lives.
